The mission of the Indiana Department of Veterans Affairs is to assist Hoosier Veterans, service personnel, their dependents and/or survivors in obtaining every benefit and advantage due them under the laws of the State of Indiana and the United States. The definition of "Hoosier veteran" includes an individual who: (1) is a resident of Indiana; (2) served in a reserve component of the armed forces of the United States or the Indiana National Guard; and (3) completed any required military occupational specialty training and was not discharged or separated from the armed forces or the Indiana National Guard under dishonorable or other than honorable conditions. The Department works with a network of certified County Veteran Service Officers who assist veterans with information and preparation of paperwork at no cost. Indiana benefits that may apply are:

### **DIAL 2-1-1 for Assistance**

The telephone 2-1-1 dialing code for human services information provides assistance concerning: (1) domestic violence; (2) infant mortality; (3) **veterans**; (4) senior citizens; (5) vulnerable children; and (6) public health.

### **Remission of Fees for the Child(ren) of a Disabled Veteran (CDV)**

The biological or legally adopted child(ren) of eligible disabled Indiana veterans may be eligible for remission of fees at any state-supported post secondary school or university in the State of Indiana. This currently applies at any age as long as the child was adopted by age 18 and the child is an Indiana resident. The remission of fees/CDV program is a State of Indiana program and is not the federal GI Bill education program. Students can only use this benefit at a state-supported university/college while complying with the school's residency requirements.

### **For disabled veterans who initially entered the military before June 30, 2011:**

#### **The rules are:**

1. The veteran must have served on active duty in the U.S. Armed Forces during a period of wartime, or performed duty equally hazardous that was recognized by the award of a service, campaign or expeditionary medal of the United States (the military discharge must reflect that medal). The veteran must also have been a resident of the State of Indiana for not less than 3 consecutive years during his/her lifetime. IC 21-11-7-1

#### **Eligible wartime dates are:**

WWII: December 7, 1941 and December 31, 1946

#### **And:**

2. The veteran must be declared service-connected disabled or suffered a service connected death as determined by the United States Department of Veterans Affairs or the Department of Defense (if the Department of Defense, the veteran must supply official documentation). [Children of veterans rated 80% service-connected disabled or higher by the VA will receive 100% fee remission. Children of veterans rated less than 80% service-connected disabled will receive 20% fee remission plus the disability rating of the veteran. If the disability rating of the veteran changes after the beginning of the academic semester, quarter or other period, the change in the disability rating shall be applied beginning with the immediately following academic semester, quarter or other period.]

**Or:**

5. The student was a veteran-related pupil at the Indiana Soldiers' and Sailors' Children's Home.

The Remission of Fees is good for 124 semester hours of education and may be used for undergraduate work. The amount remitted is 100% of tuition/mandatory fees. The benefit may also be used for graduate work, but will be reimbursed at the undergraduate rate, the difference is made up by the applicant/family. Ref: IC 21-14-4-1

The DVOPs specialize in tailored training and job placement opportunities for veterans with service-connected disabilities. LVERs coordinate services provided veterans including counseling, testing, and identifying training and employment opportunities. Using the list on the next page, contact the nearest Indiana Workforce Development Office with a veteran's representative for more information.

Allows a court, upon motion by a parent who has received military deployment orders, to delegate the parent's parenting time, or a part of the parent's parenting time, during the time that the parent is deployed to a person who has a close and substantial relationship with the parent's child, if the court determines delegating the time is in the best interests of the child. (IC 31-14-13-6.1 and 6.2) Also provides that an order delegating parenting time automatically terminates after the parent returns from deployment. It allows the court to terminate an order delegating parenting time if the court determines that the delegated parenting time is no longer in the best interests of the child. In addition to private and public colleges/universities and other education programs, there are more than 400 approved apprenticeship/OJT programs in the State. ### **Alcohol and Drug Dependency Treatment**

Veterans without service-connected disabilities whose incomes exceed the threshold of free medical Care may be authorized treatment for alcohol and drug dependency only if the veteran agrees to pay the applicable co-payment. After hospitalization for alcohol or drug treatment, veterans may be eligible for outpatient care, or may be authorized to continue treatment or rehabilitation in private facilities, such as halfway houses, at VA expense.

### **Burial Expense Reimbursement**

VA will pay a \$300 burial and funeral expense allowance for veterans who, at the time of death, were entitled to receive a pension or compensation, or who would have been entitled to compensation (as evidenced by a VA rating) but for receipt of military retirement pay. Eligibility also is established when death occurs in a VA facility, a State veterans' home, or a nursing home with which VA contracted. For service-connected deaths, there is no time limit for filing of reimbursement claims. In other deaths, claims must be filed within two years. VA will pay up to a \$300 plot or internment allowance when the veteran is not buried in a cemetery under U.S. Government jurisdiction if the veteran is discharged from active duty because of a disability incurred or aggravated in the line of duty, or if the veteran was in receipt of compensation or pension, or would have been in receipt of compensation but for receipt of military retired pay, or if the veteran died while hospitalized by VA. As of November 1, 1990, the plot allowance is no longer payable based solely on wartime service. The deceased veteran must have been discharged under conditions other than dishonorable. VA will pay a burial allowance up to \$2000 instead of the \$300 basic allowance and the \$300 plot allowance if the veteran's death is service-connected. VA will pay the cost of transporting the remains of a service-connected veteran to the nearest national cemetery that has available grave sites.

### **Burial Flags**

VA provides an American Flag to drape a veteran's casket, after which it may be given to the next of kin or associate of the deceased. The deceased veteran must have been discharged under conditions other than dishonorable and must have been either a wartime veteran or one who served after January 31, 1955, or a veteran who served at least one enlistment during peacetime, unless discharged or released sooner for a disability incurred in the line of duty. Also, National Guardsmen and Reservists who have 20 years of service are eligible. The VA Regional Office also may issue a flag for a veteran who is missing in action and is later presumed dead. Flags are available at any VA Regional Office and most local post offices.

### **Headstone or Grave Marker**

A headstone or grave marker is available for any deceased veteran of wartime or peacetime service (other than for training) who was discharged under conditions other than dishonorable. National Guardsmen and Reservists who die while performing active duty for training are eligible. Also, National Guardsmen and Reservists who have 20 years of service are eligible. A headstone or grave marker is provided without charge and shipped to the cemetery designated. Applicants are cautioned to insure the correctness of all information. The benefit does not apply to members of a veteran's family who are buried in a private cemetery. Applications (DVA Form 40-1330) go to Memorial Programs Service (41A1), Department of Veterans Affairs, 5109 Russell Road, Quantico, VA 22134-3903. Any VA Regional Office will provide information and assistance in filling out an application.

Applications should be made only at the time of death of the veteran or that of an eligible dependent by contacting the Superintendent of the national cemetery in which burial is desired.

## **Combat-Related Special Compensation (CRSC)**

CRSC is a special payment for military retirees with combat-related disabilities whose retired pay is reduced by their VA disability pay. The 2008 NDAA extends CRSC eligibility to retirees with a combat-related disability who served fewer than 20 years and retired under Chapter 61, Title 10, United States Code. Note: Using the formula set in the new law, this CRSC benefit can vary greatly based on the number of years of service and the degree of disability. In some cases, there would be no CRSC benefit. For more information, go to the CRSC Website:

*<http://www.crsc.army.mil>*

## **Concurrent Retirement and Disability Payments (CRDP)**

CRDP is a special payment for military retirees, who have at least 20 years of creditable service, who have been rated 50% or more disabled by the VA and whose retired pay is reduced by their disability pay. This payment is being phased-in, increasing from Jan. 1, 2004 through Dec. 31, 2014, when it will equal the retired pay lost to the offset. There is no phase-in period for retirees rated 100% disabled by reason of unemployability by the VA. Any retroactive payments due will be paid after Oct. 1, 2008.

## **Dependency and Indemnity Compensation (DIC)**

Death due to service-connected disability DIC payments are authorized for surviving spouses, unmarried children under 18 (as well as certain disabled children and those between 18 and 23 if attending a VA-approved school) and certain parents of service personnel or veterans who die on or after January 1, 1957, from (a) a disease or injury incurred or aggravated in line of duty while on active duty or active duty for training, or (b) an injury incurred or aggravated in the line of duty while on inactive duty training, or (c) a disability compensable by VA. Death cannot be the result of willful misconduct.

## **Disability Compensation**

Monetary benefits are paid to veterans who are disabled by injury or disease incurred or aggravated during active military service in the line of duty. The separation or discharge from service must have been under conditions that were other than dishonorable. The benefits are related to the residual effects of the injury or disease. The amount of the benefit is usually changed by Congress annually and is not subject to federal or state income tax. Federal law prohibits the award of VA disability compensation concurrent with military retirement pay, except to the extent the retirement pay is waived.

## **Death Due To a Non-Service Connected Cause**

DIC payments are authorized for surviving spouses, unmarried children under 18 (as well as certain disabled children and those between 18 and 23 if attending a VA approved school), of certain veterans who were totally service-connected disabled at time of death but whose deaths were not the result of their service-connected disability, if (a) the veteran was continuously rated totally disabled for a period of 10 years or more or (b) if the veteran was rated for less than 10 years, was so rated for a period of not less than 5 years from the date of discharge from military service. If the death occurred after service, the veteran's discharge must have been under conditions other than dishonorable. Payments under this provision are subject to offset by the amount received from judicial proceedings brought on account of the veteran's death.

## **Vocational Rehabilitation (Chapter 31)**

Vocational Rehabilitation is a program to help eligible veterans obtain or retain suitable employment. It may also assist eligible seriously disabled veterans achieve independence in daily living. The program offers a number of services to help each eligible veteran reach his or her rehabilitation goal. These services include vocational counseling, educational training, skills training, financial aid, job assistance, and, if needed, medical and dental treatment. Veterans with honorable discharges who incurred a service-connected disability of 20% or more while in service and are found in need of services to restore employability may be entitled to services. Veterans rated 10 % and meeting the criteria for a serious employment handicap may be entitled.

For additional information on the application procedure, eligibility and entitlement, basic termination dates, length of training, subsistence allowances and other information contact the nearest VA Regional Office. Each veteran who applies will be provided a vocational assessment, which will assist in determining individual entitlement.

Veterans who previously completed a VA vocational rehabilitation program and have used the initial 26 weeks of unemployment benefits may qualify for an additional 12 months of VA vocational rehabilitation benefits.

- You must have previously completed a VA Vocational Rehabilitation and Employment program and been considered “rehabilitated” by VA.
- You must apply within six months of using up your initial 26 weeks of unemployment benefits. You may still qualify for extended or emergency unemployment benefits.

VA may offer incentive payments to encourage employers to hire and train program participants.

- VA may be able to reimburse an employer up to one-half your annual salary for 6 months or longer.
- You must apply and qualify for VA vocational rehabilitation benefits prior to being hired.

To apply or learn more, call 1-800-827-1000, or visit [www.va.gov/VOW](http://www.va.gov/VOW) and fill out an online application (VONAPP), or complete VA Form 28-1900, Disabled Veterans Application for Vocational Rehabilitation, and submit it to the VA Regional Office.

## **Educational Training, Montgomery GI Bill (Active Duty-Chapter 30)**

For honorably discharged veterans who enter active duty in full-time status for the first time after June 30, 1985. Individuals holding active duty status with the National Guard after November 29, 1989, are also entitled. The participant must, with certain exceptions, serve continuously on active duty for three years of a three-year enlistment, or for a lesser benefit, two years of an initial active duty obligation of less than three years. Two continuous years on active duty followed by four years of Selected Reserve Service will also qualify an individual. Participants must make \$1,200 contribution during the service member’s first enlistment year. National Guard members also are eligible if their active duty is under section 502(f), title 32 U.S.C. and they serve for 90 consecutive days when authorized by the President or Secretary of Defense for a national emergency and is supported by federal funds. Individuals are eligible as soon as they reach the 90-day point whether or not they are currently on active duty. Dept. of Defense will fully identify contingency operations that qualify for benefits under chapter 1607. Disabled members who are injured or have an illness or disease incurred or aggravated in the line of duty and are released from active duty before completing 90 consecutive days are also eligible.

For a current monthly benefit amount call the VA Regional Office at 1-888-442-4551 or visit their website at:

## **Post-9/11 G.I. Bill (Chapter 33)**

Service members who served at least 90 aggregate days on active duty after September 10, 2001 (or release for a service-connected disability after at least 30 days of continuous service) could be eligible for up to 36 months of educational benefits under the Post-9/11 Education Assistance Act. This includes National Guard and Reserve service members who have been activated under Title 10. The act, which is effective August 1, 2009 can be used for 15 years after the last period of active duty. No payments can be made under this program for training pursued before that date.

Post 9/11 Educational Benefits have been modified to include the Post 9/11 Veterans Educational Assistance Act of 2010. On January 4, 2011, President Obama signed into law the "Post 9/11 Veterans Educational Assistance Act of 2010". A brief summary of the provisions of this legislation is outlined below:

Effective now but not payable until October 1, 2011:

- Expands the Post-9/11 GI Bill to include Active Service performed by National Guard members under title 32 U.S.C. for the purpose of organizing, administering, recruiting, instructing, or training the National Guard; or under section 502(f) for the purpose of responding to a national emergency

Effective August 1, 2011:

- Simplifies the tuition and fee rates for those attending a public school and creates a national rate for those enrolled in a private or foreign school
- No individual state caps
  - Private school costs are capped at \$17,500 annually
  - The Yellow Ribbon Program still exists for costs above the cap
- Allows VA to pay kickers on a monthly basis instead of a lump sum at the beginning of the term and also pay kickers to those who are attending school at half-time or less

- Allows those who are eligible for both Chapter 31 Vocational Rehabilitation and Employment benefits and Post-9/11 GI Bill benefits to choose the Post-9/11 GI Bill's monthly housing allowance instead of the Chapter 31 subsistence allowance
- Allows reimbursement for more than one "license and certification" test (previously only one test was allowed)
- Allows reimbursement of fees paid to take national exams used for admission to an institution of higher learning (e.g., SAT, ACT, GMAT, LSAT)
- Break or interval pay is no longer payable under any VA education benefit program unless under an Executive Order of the President or due to an emergency situation such as a natural disaster or strike.

Effective October 1, 2011:

- Allows students to use the Post-9/11 GI Bill for non-college degree programs such as: on-the-job training, flight (for other than a private pilot license) at flight schools, apprenticeship training, and correspondence courses
- Flight programs: Pays the lesser of actual net costs for in-state Tuition and Fees assessed by the school or \$10,000, whichever is less "per academic year."
- Housing allowance is now payable to students (other than those on active duty) enrolled solely in distance learning. The housing allowance is ½ the national average BAH for an E-5 with dependents (the full time rate would be \$673.50 for 2011).
- Prorates housing allowance by rate of pursuit (rounded to the nearest tenth)
- A ¾ time student would receive 80% of the BAH rate. Allow students on active duty to receive a books and supplies stipend.
- Yearly books and supplies stipend of up to \$1,000 (paid to the student); and a one-time payment of \$500 to certain individuals relocating from highly rural areas.

Maximum benefit depends upon the aggregate period of active duty served after 9/11/01.

The 2009 Supplemental Appropriations bill (H.R. 2346 - Public Law No: 111-32), which funds U.S. military operations in Afghanistan and Iraq and includes a provision to expand GI Bill benefits to children of fallen U.S. soldiers.

The new law known as the Marine Gunnery Sergeant John David Fry Scholarship amends the Post-9/11 GI Bill so that children of those who have died on active duty since 9/11 qualify for the education benefit; eliminates the requirement that the deceased parent must have completed a minimum of military service in order for their benefits to be transferred to their children; and eliminates the cap on transferred benefits, which is currently 36 months of benefits in total for all surviving children.

The new Fry scholarship is slightly different than the normal family transfer option under the Post-9/11 GI Bill in that the scholarship will qualify dependents for their own full 36 months of benefits. The Post-9/11 GI Bill allows more than one person to receive transferred benefits, but no more than 36 total months can be transferred. Fry scholarship recipients are not eligible to participate in the Yellow Ribbon program.

All children of fallen soldiers would qualify for the maximum benefit:

- Tuition and fees of up to the maximum in-state tuition and fees at a public institution;
- A monthly housing allowance at the location of the school, based on the Basic Allowance for Housing for an E-5 with dependents; and
- An annual books and supplies stipend of up to \$1,000.

## **Transferability of Post 9/11 GI Bill Benefits (DOD Administers Transferability)**

Post 9/11 GI Bill includes the ability to transfer benefits to dependents for veterans meeting DOD's eligibility requirements. Those requirements can be reviewed online at [www.defense.gov/home/features/2009/0409\\_gibill/](http://www.defense.gov/home/features/2009/0409_gibill/). If you have questions or difficulties, contact your unit's personnel office.

### **Education Benefit Eligibility Time Limits**

As a general rule, veterans have 10 years after separation from active duty to use their GI Bill benefits. Veterans using the Post 9/11 GI Bill have 15 years after separation from active duty to use their benefits. Eligible veterans who convert Ch. 30, 1606 or 1607 benefits to Post 9/11 GI Bill have 15 years from their last date of active duty service to use their remaining months of entitlement. The choice to convert to the Post 9/11 GI Bill is an irrevocable decision. Details are available at <http://www.gibill.va.gov/>.

### **Changes made by the 2008 National Defense Authorization Act**

1. Effective 10/1/2008 reservists otherwise eligible for MGIB-SR or REAP may receive accelerated payments for a non-degree program lasting two years or less. More information will be provided at a later date.
2. The 2008 NDAA has made the 80% rate available to anyone who was mobilized for at least two continuous years of active duty OR served multiple mobilizations totaling 3 years or more. All qualifying mobilization periods beginning on or after 9/11/2001 may be used to determine eligibility for the 80% rate. Payment of the higher rate is not authorized prior to January 28, 2008, the effective date of the law.
3. Eligible REAP participants may now participate in the "buy-up" program. Eligible reservists may pay up to \$600.00 to increase their monthly rate of pay by as much as \$150.00 per month. You must be a member of a Ready Reserve component (Selected Reserve, Individual Ready Reserve, or Inactive National Guard) to pay into the "buyup" program.
4. Members who were called up from the Selected Reserve, completed their REAP qualifying period of active duty service, and then returned to the Selected Reserve for the remainder of their service contract are now eligible for REAP benefits for 10 years upon separation. In addition, members who were called up from the Individual Ready Reserve (IRR) or the Inactive National Guard (ING), completed their REAP qualifying period of active duty service, and then entered the Selected Reserve to complete their service contract are now eligible for REAP benefits for 10 years upon separation.
5. A member who is involuntarily separated from the Selected Reserve due to a deactivation of his or her unit is now eligible for MGIB-SR for a period of 14 years from their original date of eligibility. The deactivation must occur between 10/31/2007 and 9/30/2014. This provision is effective January 28, 2008, the effective date of the law. Reservists who were separated between 10/31/2007 and 1/28/2008 may receive benefits for training beginning on or after January 28, 2008.
6. Under previous regulations reservists who had a break in service of 90 days or less maintained their eligibility to REAP. The new law has expanded that eligibility to anyone having a break in service (regardless of length) as long as they continue to serve in another component of the Ready Reserve (such as IRR or ING) during the break in service.

### **Troops To Teachers**

Troops to Teachers is a U.S. Department of Education and Department of Defense program that helps eligible military personnel begin a new career as teachers in public schools. It provides funds to recruit, prepare, and support veterans as teachers in high-poverty schools. Successful program candidates obtain certification or licensing as elementary school teachers, secondary school teachers, or vocational or technical teachers. The program also helps these individuals find employment in high-need local education agencies or charter schools. For more information, contact Emily Siefken at 312-814-7204 or 1-866-372-3157.

## **Family Medical Leave Act**

On January 28, 2008, President Bush signed into law a bill that expands the Family Medical Leave Act (FMLA) to include leave for military families. Specifically, employers must provide 26 weeks of FMLA leave during a single 12-month period to permit a "spouse, son, daughter, parent, or next of kin" to care for a "member of the Armed Forces, including a member of the National Guard or Reserves, who is undergoing medical treatment, recuperation, or therapy, is otherwise in outpatient status, or is otherwise on the temporary disability retired list, for a serious injury or illness." This portion of the expansion became effective upon the president's signature and is part of the 2008 National Defense Authorization Act (NDAA).

## **VA Health Care Eligibility**

In October 1996 Congress passed Public Law 104262, the Veterans' Health Care Eligibility Reform Act of 1996. This legislation led the way for the creation of a Uniform Benefits Package -a standard health benefit plan available to all veterans. This Package not only opens up services to veterans, but also simplifies the process by which veterans can receive the services. To receive healthcare under the new program veterans must first be enrolled. Veterans can obtain application forms for enrollment by visiting, calling, or writing to their nearest VA healthcare facility or veteran's benefits office. Please refer to the listing on the back of this brochure for the facility nearest you.

Service members, including National Guard members and Reservists who return from activation contingency operations are eligible for up to 5 years of eligibility for VA health care. This includes treatment for any condition, not necessarily those disabilities or injuries which are related to their active duty service.

Limited dental care is available to recently discharged service members who apply within 180 days of their discharge, if their DD Form 214 indicates they did not receive the necessary dental care within the 90-day period prior to their discharge.

## **Nursing Home Care**

Skilled nursing care and related medical care in VA or private nursing homes is provided for convalescents or persons who are not acutely ill and not in need of hospital care. Eligibility for admission or transfer to VA nursing home care is the same as for hospitalization. Veterans who have a service-connected disability are given first priority. VA authorized care normally may not be provided in excess of six months except for veterans whose need for nursing home care is for a service-connected disability or for veterans who were hospitalized primarily for treatment of a service-connected disability. Nursing home care for non-service connected veterans whose income exceeds the income limit for hospital care may be authorized only if the veteran agrees to pay the applicable co-payment.

## **Domiciliary Care**

Domiciliary care provides rehabilitative and long-term, health-maintenance care for veterans who require minimal medical care but who do not need the skilled nursing services provided in nursing homes. VA provides domiciliary care to veterans whose annual income does not exceed the maximum annual rate of VA pension and to veterans determined to have no adequate means of support.

## **Non-Service-Connected Death Benefit**

Surviving spouses and children of deceased veterans of the WWI, WWII, Korean War, Vietnam era, or the Gulf War may be eligible for support as the survivors of a veteran who died from non-service connected causes if they have limited income. The veteran must have had 90 days service, at least one day of which was during a period of war, unless discharged or retired sooner for service-connected disability, and was discharged under conditions other than dishonorable. If the veteran died in service, not in the line of duty, benefits may be payable if the veteran had completed at least two years of honorable active service.

## **Job Finding Assistance**

The U.S. Department of Labor is the federal agency responsible for providing employment assistance to veterans through local employment offices. The Local Veterans Employment Representatives provide functional supervision of job counseling, testing and employment placement services provided to veterans. Priority in referral to job openings and training programs is given to eligible veterans, with preferential treatment for disabled veterans.

In addition, the VA assists veterans who are seeking employment by providing information about on-the job and apprenticeship training opportunities through VA Regional Offices.

## **Unemployment Compensation**

Unemployment compensation to veterans provides a weekly income for a limited period of time to help veterans meet basic needs while searching for employment. Generally, benefits are not paid to those receiving certain educational assistance or vocational subsistence allowances from VA. Veterans should apply immediately after leaving service at their nearest local state employment service office and present their DD Form 214 to establish their type of separation from service.

## **Reemployment Rights**

Under the Uniformed Services Employment Reemployment Rights Act (USERRA), a person who left a civilian job to enter active duty in the Armed Forces, either voluntarily or involuntarily, may be entitled to return to his or her civilian job after discharge or release from active duty if certain requirements are met. This Law covers those who rendered active duty service, initial active duty for training, active duty for training or inactive duty for training. The Law also protects a veteran from discharge without just cause for one year from the date of reemployment, and a Reservist or Guardsmen from discharge without just cause for six months after returning home from initial active duty for training. The Law prohibits discrimination in hiring, promotion, or other advantage of employment because of one's obligation as a member of a Reserve or Guard unit. A veteran must apply to the pre-service employer within 90 days after separation from active duty. Reserve and Guard members returning from initial active duty for training must apply within 31 days. Questions on the requirements to be met by the veteran or requests for assistance should be directed to the Department of Labor's director for Veterans Employment and Training (DVET) for the state in which the employer is located. Consult telephone directories under U.S. Department of Labor or call 1-800-442-2838 for the appropriate DVET phone number.

## **Pension**

Veterans 65 years of age or older may be eligible for VA Improved Pension if they have limited income and have 90 days or more of active service, at least one day of which was during a period of war. Discharge from active duty must have been under conditions other than dishonorable. Veterans under age 65, but determined by Social Security to be totally disabled may be eligible. Wartime veterans in a nursing home for long-term care because of a disability are also eligible. All of the above veterans must meet VA low income criteria to be eligible and have less than \$80,000 net worth. Payments are made to qualified veterans to bring their total income, including other retirement or Social Security income, to an established support level. This pension is not payable to those who have assets that can be used to provide adequate maintenance.

## **Reserve Retirement Pay**

The 2008 National Defense Authorization Act reduced the eligibility age for Reserve retired pay, (which had been age 60) by three months for every 90 days of active duty served within the same fiscal year (1 October - 30 September). The active duty must be performed after the date the law was enacted and the eligibility age cannot be reduced below age 50. An example would be the Guardsman or Reservist who served one year of active duty in support of the GWOT. The eligibility age to begin receiving retired pay would be age 59 instead of age 60.

## **Life Insurance**

For information about the government life insurance veterans may call the VA Insurance Center toll-free at 1-800-669-8477 between 8:30 AM and 6:00 PM ET to discuss premium payments, insurance dividends, changes of address, policy loans, naming beneficiaries and reporting the death of the insured.

## **Persian Gulf, Agent Orange and Ionizing Radiation**

Veterans who served in the Persian Gulf War or who claim exposure to Agent Orange or atomic radiation are provided with free comprehensive medical examinations, including base-line laboratory tests and other tests determined necessary by an examining physician to determine current health status. Veterans wishing to participate should contact the nearest VA health care facility to request an examination. VA also provides priority treatment to any Vietnam-era veteran whom, while serving in Vietnam, may have been exposed to dioxin or to a toxic substance in an herbicide or defoliant used for military purposes.

Priority healthcare services are available for any veteran exposed to ionizing radiation from the detonation of a nuclear device in connection with nuclear tests of the American occupation in Japan during specified dates. Contact the VA Regional Office for expiration dates for treatments. Marital and family counseling is provided to veterans of the Persian Gulf War and their spouses and children. The counseling is provided at VA medical centers and vet centers.

## **Loans on Homes, Condominiums, & Mobile Homes**

For veterans and eligible unmarried surviving spouses of WWII, Korean War, post-Korean War, Vietnam era, and post Vietnam era, for spouses of service personnel officially listed as missing in action, or captured, for more than 90 days, and for service personnel who have served at least 90 days. The home loan program has been extended to members of the National Guard and Reserves who have served a total of at least 6 years and have received an honorable discharge. However, a higher funding fee will be required. This eligibility is in effect from November 1, 1992, through September 30, 2003. The loan may be used to buy, build, repair, alter, or improve a home. This also includes energy efficient improvements. The loan also may be used to buy a residential unit in certain condominium projects, to finance an existing home, and to buy a mobile home with or without a lot.

For additional information on loan maximums, additional entitlement, restoration and substitution of entitlement, financing, interest rates, insured loans, down payments and maturity, closing costs, safeguards, certification, or release of liability, call Loan Servicing at 1-800-729-5772.

## **Military Records**

Indiana veterans may contact the Indiana Department of Veterans Affairs to see if a copy of their DD214 is on file. In Indianapolis call (317) 232-3910 or toll-free at 1-800-400-4520. If the veteran cannot locate discharge and separation papers, a copy can be obtained online at <http://www.archives.gov/veterans/military-service-records/>. A copy can also be obtained by completing a Standard Form 180 (SF180) or by writing the National Personnel Records Center, Military Personnel Records, 1 Archives Dr., St. Louis, MO 63138. Specify that a duplicate separation document or discharge is needed. The veteran's full name should be printed or typed, and the request must contain the signature of the veteran or the signature of the next of kin, if the veteran is deceased. Include the veteran's branch of service, service number or Social Security number (whichever is appropriate), and the exact or approximate years of service. The SF180 can be obtained from VA offices, County Veterans Service Officers, and most veteran service organizations.
