Indiana Department of Veterans Affairs

The mission of the Indiana Department of Veterans Affairs is to assist Hoosier Veterans, service personnel, their dependents and/or survivors in obtaining every benefit and advantage due them under the laws of the State of Indiana and the United States. The definition of "Hoosier veteran" includes an individual who: (1) is a resident of Indiana; (2) served in a reserve component of the armed forces of the United States or the Indiana National Guard; and (3) completed any required military occupational specialty training and was not discharged or separated from the armed forces or the Indiana National Guard under dishonorable or other than honorable conditions. The Department works with a network of certified County Veteran Service Officers who assist veterans with information and preparation of paperwork at no cost. Indiana benefits that may apply are:

DIAL 2-1-1 for Assistance

The telephone 2-1-1 dialing code for human services information provides assistance concerning: (1) domestic violence; (2) infant mortality; (3) **veterans**; (4) senior citizens; (5) vulnerable children; and (6) public health.

Remission of Fees for the Child(ren) of a Disabled Veteran (CDV)

The biological or legally adopted child(ren) of eligible disabled Indiana veterans may be eligible for remission of fees at any state-supported post secondary school or university in the State of Indiana. This currently applies at any age as long as the child was adopted by age 18 and the child is an Indiana resident. The remission of fees/CDV program is a State of Indiana program and is not the federal GI Bill education program. Students can only use this benefit at a state-supported university/college while complying with the school's residency requirements.

For disabled veterans who initially entered the military before June 30, 2011:

The rules are:

1. The veteran must have served on active duty in the U.S. Armed Forces during a period of wartime, or performed duty equally hazardous that was recognized by the award of a service, campaign or expeditionary medal of the United States (the military discharge must reflect that medal). The veteran must also have been a resident of the State of Indiana for not less than 3 consecutive years during his/her lifetime. IC 21-11-7-1

Eligible wartime dates are:

WWII: December 7, 1941 and December 31, 1946

Vietnam: Aug 5, 1964 and May 7, 1975

Korea: June 27, 1950 and Jan 31, 1955

Gulf War: August 2, 1990 - present

Equally hazardous dates are shown on the IDVA website at www.in.gov/dva/2378.htm.

And:

2. The veteran must be declared service-connected disabled or suffered a service connected death as determined by the United States Department of Veterans Affairs or the Department of Defense (if the Department of Defense, the veteran must supply official documentation). [Children of veterans rated 80% service-connected disabled or higher by the VA will receive 100% fee remission. Children of veterans rated less than 80% service-connected disabled will receive 20% fee remission plus the disability rating of the veteran. If the disability rating of the veteran changes after the beginning of the academic semester, quarter or other period, the change in the disability rating shall be applied beginning with the immediately following academic semester, quarter or other period.]

Or:

3. The veteran received a Purple Heart Medal. (Official documentation of the award is required)

Or:

4. The veteran was a resident of Indiana at the time of entry into the service and was declared a POW or MIA after January 1, 1960. (There is no restriction on the number of hours for this benefit, but it is good only up to and including a bachelor's degree.) IC 10-17-7

Or:

5. The student was a veteran-related pupil at the Indiana Soldiers' and Sailors' Children's Home.

The Remission of Fees is good for 124 semester hours of education and may be used for undergraduate work. The amount remitted is 100% of tuition/mandatory fees. The benefit may also be used for graduate work, but will be reimbursed at the undergraduate rate, the difference is made up by the applicant/family. Ref: IC 21-14-4-1

For children of disabled veterans who entered military service on or after July 1, 2011:

The rules are:

1. The veteran must have served on active duty in the U.S. Armed Forces during a period of wartime, or performed duty equally hazardous that was recognized by the award of a service, campaign or expeditionary medal of the United States (the military discharge must reflect that medal); The veteran must have originally entered military service from Indiana or must have been a resident of the State of Indiana for not less than 5 consecutive years immediately preceding the application. (IC 21-11-7-1).

Eligible wartime dates are:

Recognized wartime periods after June 30, 2011 (including a wartime period which began earlier but continued into the eligible period during which the veteran served).

And:

2. The veteran must be declared service-connected disabled or suffered a service connected death as determined by the United States Department of Veterans Affairs or the Department of Defense (if the Department of Defense, the veteran must supply official documentation),

Or:

3. The veteran received a Purple Heart Medal. (Receipt of the medal must be reflected on the Record of Discharge, DD Form 214)

The Remission of Fees is good for 124 semester hours of education and may be used for undergraduate level work only. The amount remitted depends on the VA service-connected disability rating as shown below in item 4. Ref: IC 21-14-4-1.

Please Note: The remission of fees/CDV program is a State of Indiana provided program and is not the federal GI Bill education program. CDV students can only use this benefit at a state supported university/college in Indiana.

 - Students not reaching these goals will be placed on probation and must reach the requisite GPA by the next semester or its equivalent.
4. Students will have their remission of fees prorated based on the VA disability rating as follows:

- Children of veterans rated 80% service-connected disabled or higher by the VA or whose parent is/was a recipient of the Purple Heart Medal will receive 100% fee remission.
- Children of veterans rated less than 80% service-connected disabled will receive 20% fee remission plus the disability rating of the veteran.
- If the disability rating of the veteran changes after the beginning of the academic semester, quarter or other period, the change in the disability rating shall be applied beginning with the immediately following academic semester, quarter or other period.

A person who entered active duty from a permanent home address in Indiana, received the Purple Heart and received an honorable discharge, is eligible to pay the resident tuition rate at a state supported college or university and who otherwise possesses the requisite academic qualifications, is entitled to remission of fees for 124 semester credit hours. If the student receives financial aid through any other source, the remission of fees is adjusted accordingly. Ref: IC 21-14-10

(IC 31-14-13-6.1 and 6.2) Also provides that an order delegating parenting time automatically terminates after the parent returns from deployment. It allows the court to terminate an order delegating parenting time if the court determines that the delegated parenting time is no longer in the best interests of the child. To apply, individuals must submit VA Form 40-10007, Application for Pre-Need Determination of Eligibility for Burial in a VA National Cemetery (available at www.va.gov/vaforms/), to the National Cemetery Scheduling Office by fax, email or mail. For more details visit www.cem.va.gov/cem/pre-need/index.asp.

Combat-Related Special Compensation (CRSC)

CRSC is a special payment for military retirees with combat-related disabilities whose retired pay is reduced by their VA disability pay. The 2008 NDAA extends CRSC eligibility to retirees with a combat-related disability who served fewer than 20 years and retired under Chapter 61, Title 10, United States Code. Note: Using the formula set in the new law, this CRSC benefit can vary greatly based on the number of years of service and the degree of disability. In some cases, there would be no CRSC benefit. For more information, go to the CRSC Website: <http://www.crsc.army.mil>.

Concurrent Retirement and Disability Payments (CRDP)

CRDP is a special payment for military retirees, who have at least 20 years of creditable service, who have been rated 50% or more disabled by the VA and whose retired pay is reduced by their disability pay. Veterans do not need to apply for this benefit, as payment is coordinated between VA and the military pay center.

Dependency and Indemnity Compensation (DIC)

DIC is a tax-free monetary benefit generally payable to eligible Survivors of military service members who died in the line of duty or eligible survivors of Veterans whose death resulted from a service-related injury or disease. DIC may also be paid to certain Survivors of Veterans who were totally disabled from service –connected conditions at the time of death, even though their service connected disabilities did not cause their deaths. For more detailed information, visit http://www.benefits.va.gov/COMPENSATION/types-dependency_and_indemnity.asp.

Disability Compensation

Disability compensation is a tax-free monetary benefit paid to Veterans with disabilities that are the result of a disease or injury incurred or aggravated during active military service. The benefits amount is graduated according to the degree of the Veteran's disability on a scale from 10 percent to 100 percent (in increments of 10 percent). Compensation may also be paid for disabilities that are considered related or secondary to disabilities occurring in service and for disabilities presumed to be related to circumstances of military service, even though they may arise after service. To be eligible for compensation, the Veteran must have been separated or discharged under conditions other than dishonorable.

Housing Grants for Disabled Veterans

Service members and Veterans with certain service-connected disabilities may be entitled to a housing grant from VA to help build a new specially adapted house, to adapt a home they already own, or buy a house and modify it to meet their disability-related requirements. Eligible Veterans or service members may now receive up to three uses of the grant, with the total dollar amount of the grants not to exceed the maximum allowable. Housing grant amounts may be adjusted Oct. 1 every-year based on a cost-of construction index. These adjustments will increase the grants amounts or leave them unchanged: grant amounts will not decrease. Previous grant recipients who had received assistance of less than the current maximum allowable may be eligible for an additional grant usage. To obtain general information about the Specially Adapted Housing program, visit: www.benefits.va.gov/homeloans/adaptedhousing.asp, or call the program's local office of jurisdiction at 1-877-827-3702.

Vocational Rehabilitation and Employment (Chapter 31)

VR&E, also referred to as the Chapter 31 program, provides services to eligible service members and Veterans with service-connected disabilities and an employment handicap to help them to prepare for, obtain, and maintain suitable employment. For Veterans and service members with service-connected disabilities so severe that they cannot immediately consider work, VR&E provides services to improve their ability to live independently as possible.

A Veteran must have a VA service-connected disability rating of at least 20 percent and determined with an employment handicap, or rated 10 percent and determined with a serious employment handicap, and must be discharged or released from active military service under other than dishonorable conditions.

Service members are eligible to apply if they expect to receive an honorable discharge upon separation from active duty, obtain a memorandum rating of 20 percent or more from VA, obtain a proposed Disability Evaluation System (DES) rating of 20 percent or more from VA, or obtain a referral to a Physical Evaluation Board (PEB) through the Integrated Disability Evaluation System (IDES).

Veterans work with a VRC to select one of the five tracks to employment based on their individualized needs. The Five Tracks to Employment provide greater emphasis on exploring employment options early in the rehabilitation planning process, better informed choices for the Veteran regarding occupational and employment options, faster access to employment for Veterans who have identifiable and transferable skills for direct placement into suitable employment, and an option for Veterans who are not able to work, but need assistance to lead a more independent life. If a program of training is selected, VA pays the cost of the approved training and services (except those coordinated through other providers) that are outlined in the Veteran's rehabilitation plan, including subsistence allowance. For additional information on VR&E benefits please visit: www.benefits.va.gov/vocrehab/index.asp.

Remedial, deficiency, and refresher courses may be approved under certain circumstances. Benefits generally expire 10 years after discharge. Current payment rates are available at <http://www.benefits.va.gov/gibill/>.

A Veteran may be eligible for this benefit if he or she entered active duty after June 30, 1985, has an honorable discharge, did not decline MGIB in writing, and served three continuous years of active duty (or have an obligation to serve four years in the Selected Reserve after active duty service). There are exceptions for disability, re-entering active duty, and upgraded discharges. All participants must have a high school diploma, equivalency certificate, or have completed 12 hours toward a college degree before applying for benefits.

Education, Dependents of Veterans (Chapter 35)

This benefit is for the children, spouses, widows and widowers of veterans whose deaths or permanent total disabilities were service-connected and for spouses and children of service persons missing in action or prisoners of war. Eligible persons, periods of eligibility, counseling, effects of marriage, length of training and type of training, monthly rates, and other information may be obtained from the nearest VA Regional Office. Educational Training, Montgomery GI Bill (Selected Reserve - Chapter 1606)

For members of the Selected Reserve and National Guard. The participant must have a 6-year obligation signed after June 30, 1985, complete active duty for training (IADT), have obtained a high school education or equivalent certificate before completion of IADT, and remain in good standing in a drilling unit. National Guard members also are eligible if their active duty is under section 502(f), title 32 U.S.C. and they serve for 90 consecutive days when authorized by the President or Secretary of Defense for a national emergency and is supported by federal funds. Individuals are eligible as soon as they reach the 90-day point whether or not they are currently on active duty. Dept. of Defense will fully identify contingency operations that qualify for benefits under chapter 1607. Disabled members who are injured or have an illness or disease incurred or aggravated in the line of duty and are released from active duty before completing 90 consecutive days are also eligible.

For a current monthly benefit amount call the VA Regional Office at 1-888-442-4551 or visit their website at:

Post-9/11 G.I. Bill (Chapter 33)

Service members who served at least 90 aggregate days on active duty after September 10, 2001 (or release for a service-connected disability after at least 30 days of continuous service) could be eligible for up to 36 months of educational benefits under the Post-9/11 Education Assistance Act. This includes National Guard and Reserve service members who have been activated under Title 10. The act, which is effective August 1, 2009 can be used for 15 years after the last period of active duty. No payments can be made under this program for training pursued before that date.

Post 9/11 Educational Benefits have been modified to include the Post 9/11 Veterans Educational Assistance Act of 2010. On January 4, 2011, President Obama signed into law the "Post 9/11 Veterans Educational Assistance Act of 2010". A brief summary of the provisions of this legislation is outlined below:

Effective now but not payable until October 1, 2011:

- Expands the Post-9/11 GI Bill to include Active Service performed by National Guard members under title 32 U.S.C. for the purpose of organizing, administering, recruiting, instructing, or training the National Guard; or under section 502(f) for the purpose of responding to a national emergency

Effective August 1, 2011:

- Simplifies the tuition and fee rates for those attending a public school and creates a national rate for those enrolled in a private or foreign school
- No individual state caps
 - Private school costs are capped at \$17,500 annually
 - The Yellow Ribbon Program still exists for costs above the cap
- Allows VA to pay kickers on a monthly basis instead of a lump sum at the beginning of the term and also pay kickers to those who are attending school at half-time or less

- Allows those who are eligible for both Chapter 31 Vocational Rehabilitation and Employment benefits and Post-9/11 GI Bill benefits to choose the Post-9/11 GI Bill's monthly housing allowance instead of the Chapter 31 subsistence allowance
- Allows reimbursement for more than one "license and certification" test (previously only one test was allowed)
- Allows reimbursement of fees paid to take national exams used for admission to an institution of higher learning (e.g., SAT, ACT, GMAT, LSAT)
- Break or interval pay is no longer payable under any VA education benefit program unless under an Executive Order of the President or due to an emergency situation such as a natural disaster or strike.

Effective October 1, 2011:

- Allows students to use the Post-9/11 GI Bill for non-college degree programs such as: on-the-job training, flight (for other than a private pilot license) at flight schools, apprenticeship training, and correspondence courses
- Flight programs: Pays the lesser of actual net costs for in-state Tuition and Fees assessed by the school or \$10,000, whichever is less "per academic year."
- Housing allowance is now payable to students (other than those on active duty) enrolled solely in distance learning. The housing allowance is ½ the national average BAH for an E-5 with dependents (the full time rate would be \$673.50 for 2011).
- Prorates housing allowance by rate of pursuit (rounded to the nearest tenth)
- A ¾ time student would receive 80% of the BAH rate. Allow students on active duty to receive a books and supplies stipend.
- Yearly books and supplies stipend of up to \$1,000 (paid to the student); and a one-time payment of \$500 to certain individuals relocating from highly rural areas.

Maximum benefit depends upon the aggregate period of active duty served after 9/11/01.

The 2009 Supplemental Appropriations bill (H.R. 2346 - Public Law No: 111-32), which funds U.S. military operations in Afghanistan and Iraq and includes a provision to expand GI Bill benefits to children of fallen U.S. soldiers.

The new law known as the Marine Gunnery Sergeant John David Fry Scholarship amends the Post-9/11 GI Bill so that children of those who have died on active duty since 9/11 qualify for the education benefit; eliminates the requirement that the deceased parent must have completed a minimum of military service in order for their benefits to be transferred to their children; and eliminates the cap on transferred benefits, which is currently 36 months of benefits in total for all surviving children.

The new Fry scholarship is slightly different than the normal family transfer option under the Post-9/11 GI Bill in that the scholarship will qualify dependents for their own full 36 months of benefits. The Post-9/11 GI Bill allows more than one person to receive transferred benefits, but no more than 36 total months can be transferred. Fry scholarship recipients are not eligible to participate in the Yellow Ribbon program.

All children of fallen soldiers would qualify for the maximum benefit:

- Tuition and fees of up to the maximum in-state tuition and fees at a public institution;
- A monthly housing allowance at the location of the school, based on the Basic Allowance for Housing for an E-5 with dependents; and
- An annual books and supplies stipend of up to \$1,000.

For additional information on education and training opportunities please visit: <http://www.benefits.va.gov/gibill/> or by call 1-888-GI-BILL-1 (1-888-442-4551).

Transferability of Post 9/11 GI Bill Benefits (DOD Administers Transferability)

Post 9/11 GI Bill includes the ability to transfer benefits to dependents for veterans meeting DOD's eligibility requirements. Those requirements can be reviewed online at www.defense.gov/home/features/2009/0409_gibill/. If you have questions or difficulties, contact your unit's personnel office.

Education Benefit Eligibility Time Limits

As a general rule, veterans have 10 years after separation from active duty to use their GI Bill benefits. Veterans using the Post 9/11 GI Bill have 15 years after separation from active duty to use their benefits. Eligible veterans who convert Ch. 30, 1606 or 1607 benefits to Post 9/11 GI Bill have 15 years from their last date of active duty service to use their remaining months of entitlement. The choice to convert to the Post 9/11 GI Bill is an irrevocable decision. Details are available at <http://www.gibill.va.gov/>.

Changes made by the 2008 National Defense Authorization Act

1. Effective 10/1/2008 reservists otherwise eligible for MGIB-SR or REAP may receive accelerated payments for a non-degree program lasting two years or less. More information will be provided at a later date.
2. The 2008 NDAA has made the 80% rate available to anyone who was mobilized for at least two continuous years of active duty OR served multiple mobilizations totaling 3 years or more. All qualifying mobilization periods beginning on or after 9/11/2001 may be used to determine eligibility for the 80% rate. Payment of the higher rate is not authorized prior to January 28, 2008, the effective date of the law.
3. Eligible REAP participants may now participate in the "buy-up" program. Eligible reservists may pay up to \$600.00 to increase their monthly rate of pay by as much as \$150.00 per month. You must be a member of a Ready Reserve component (Selected Reserve, Individual Ready Reserve, or Inactive National Guard) to pay into the "buyup" program.
4. Members who were called up from the Selected Reserve, completed their REAP qualifying period of active duty service, and then returned to the Selected Reserve for the remainder of their service contract are now eligible for REAP benefits for 10 years upon separation. In addition, members who were called up from the Individual Ready Reserve (IRR) or the Inactive National Guard (ING), completed their REAP qualifying period of active duty service, and then entered the Selected Reserve to complete their service contract are now eligible for REAP benefits for 10 years upon separation.
5. A member who is involuntarily separated from the Selected Reserve due to a deactivation of his or her unit is now eligible for MGIB-SR for a period of 14 years from their original date of eligibility. The deactivation must occur between 10/31/2007 and 9/30/2014. This provision is effective January 28, 2008, the effective date of the law. Reservists who were separated between 10/31/2007 and 1/28/2008 may receive benefits for training beginning on or after January 28, 2008.
6. Under previous regulations reservists who had a break in service of 90 days or less maintained their eligibility to REAP. The new law has expanded that eligibility to anyone having a break in service (regardless of length) as long as they continue to serve in another component of the Ready Reserve (such as IRR or ING) during the break in service.

Troops To Teachers

Troops to Teachers is a U.S. Department of Education and Department of Defense program that helps eligible military personnel begin a new career as teachers in public schools. It provides funds to recruit, prepare, and support veterans as teachers in high-poverty schools. Successful program candidates obtain certification or licensing as elementary school teachers, secondary school teachers, or vocational or technical teachers. The program also helps these individuals find employment in high-need local education agencies or charter schools. For more information, contact 312-814-7204 or 1-866-372-3157.

Family Medical Leave Act

On January 28, 2008, President Bush signed into law a bill that expands the Family Medical Leave Act (FMLA) to include leave for military families. Specifically, employers must provide 26 weeks of FMLA leave during a single 12-month period to permit a "spouse, son, daughter, parent, or next of kin" to care for a "member of the Armed Forces, including a member of the National Guard or Reserves, who is undergoing medical treatment, recuperation, or therapy, is otherwise in outpatient status, or is otherwise on the temporary disability retired list, for a serious injury or illness." This portion of the expansion became effective upon the president's signature and is part of the 2008 National Defense Authorization Act (NDAA).

VA Health Care Eligibility

In October 1996 Congress passed Public Law 104262, the Veterans' Health Care Eligibility Reform Act of 1996. This legislation led the way for the creation of a Uniform Benefits Package -a standard health benefit plan available to all veterans. This Package not only opens up services to veterans, but also simplifies the process by which veterans can receive the services. To receive healthcare under the new program veterans must first be enrolled. Veterans can obtain application forms for enrollment by visiting, calling, or writing to their nearest VA healthcare facility or veteran's benefits office. Please refer to the listing on the back of this brochure for the facility nearest you.

Service members, including National Guard members and Reservists who return from activation contingency operations are eligible for up to 5 years of eligibility for VA health care. This includes treatment for any condition, not necessarily those disabilities or injuries which are related to their active duty service.

Limited dental care is available to recently discharged service members who apply within 180 days of their discharge, if their DD Form 214 indicates they did not receive the necessary dental care within the 90-day period prior to their discharge.

Nursing Home Care

Skilled nursing care and related medical care in VA or private nursing homes is provided for convalescents or persons who are not acutely ill and not in need of hospital care. Eligibility for admission or transfer to VA nursing home care is the same as for hospitalization. Veterans who have a service-connected disability are given first priority. VA authorized care normally may not be provided in excess of six months except for veterans whose need for nursing home care is for a service-connected disability or for veterans who were hospitalized primarily for treatment of a service-connected disability. Nursing home care for non-service connected veterans whose income exceeds the income limit for hospital care may be authorized only if the veteran agrees to pay the applicable co-payment.

Domiciliary Care

Domiciliary care provides rehabilitative and long-term, health-maintenance care for veterans who require minimal medical care but who do not need the skilled nursing services provided in nursing homes. VA provides domiciliary care to veterans whose annual income does not exceed the maximum annual rate of VA pension and to veterans determined to have no adequate means of support.

Non-Service-Connected Death Benefit

Surviving spouses and children of deceased veterans of the WWI, WWII, Korean War, Vietnam era, or the Gulf War may be eligible for support as the survivors of a veteran who died from non-service connected causes if they have limited income. The veteran must have had 90 days service, at least one day of which was during a period of war, unless discharged or retired sooner for service-connected disability, and was discharged under conditions other than dishonorable. If the veteran died in service, not in the line of duty, benefits may be payable if the veteran had completed at least two years of honorable active service.

Job Finding Assistance

The U.S. Department of Labor is the federal agency responsible for providing employment assistance to veterans through local employment offices. The Local Veterans Employment Representatives provide functional supervision of job counseling, testing and employment placement services provided to veterans. Priority in referral to job openings and training programs is given to eligible veterans, with preferential treatment for disabled veterans.

In addition, the VA assists veterans who are seeking employment by providing information about on-the job and apprenticeship training opportunities through VA Regional Offices.

Unemployment Compensation

Unemployment compensation to veterans provides a weekly income for a limited period of time to help veterans meet basic needs while searching for employment. Generally, benefits are not paid to those receiving certain educational assistance or vocational subsistence allowances from VA. Veterans should apply immediately after leaving service at their nearest local state employment service office and present their DD Form 214 to establish their type of separation from service.

Reemployment Rights

Under the Uniformed Services Employment Reemployment Rights Act (USERRA), a person who left a civilian job to enter active duty in the Armed Forces, either voluntarily or involuntarily, may be entitled to return to his or her civilian job after discharge or release from active duty if certain requirements are met. This Law covers those who rendered active duty service, initial active duty for training, active duty for training or inactive duty for training. The Law also protects a veteran from discharge without just cause for one year from the date of reemployment, and a Reservist or Guardsmen from discharge without just cause for six months after returning home from initial active duty for training. The Law prohibits discrimination in hiring, promotion, or other advantage of employment because of one's obligation as a member of a Reserve or Guard unit. A veteran must apply to the pre-service employer within 90 days after separation from active duty. Reserve and Guard members returning from initial active duty for training must apply within 31 days. Questions on the requirements to be met by the veteran or requests for assistance should be directed to the Department of Labor's director for Veterans Employment and Training (DVET) for the state in which the employer is located. Consult telephone directories under U.S. Department of Labor or call 1-800-442-2838 for the appropriate DVET phone number.

Pension

Veterans 65 years of age or older may be eligible for VA Improved Pension if they have limited income and have 90 days or more of active service, at least one day of which was during a period of war. Discharge from active duty must have been under conditions other than dishonorable. Veterans under age 65, but determined by Social Security to be totally disabled may be eligible. Wartime veterans in a nursing home for long-term care because of a disability are also eligible. All of the above veterans must meet VA low income criteria to be eligible and have less than \$80,000 net worth. Payments are made to qualified veterans to bring their total income, including other retirement or Social Security income, to an established support level. This pension is not payable to those who have assets that can be used to provide adequate maintenance.

Reserve Retirement Pay

The 2008 National Defense Authorization Act reduced the eligibility age for Reserve retired pay, (which had been age 60) by three months for every 90 days of active duty served within the same fiscal year (1 October - 30 September). The active duty must be performed after the date the law was enacted and the eligibility age cannot be reduced below age 50. An example would be the Guardsman or Reservist who served one year of active duty in support of the GWOT. The eligibility age to begin receiving retired pay would be age 59 instead of age 60.

Life Insurance

For information about the government life insurance veterans may call the VA Insurance Center toll-free at 1-800-669-8477 between 8:30 AM and 6:00 PM ET to discuss premium payments, insurance dividends, changes of address, policy loans, naming beneficiaries and reporting the death of the insured.

Persian Gulf, Agent Orange and Ionizing Radiation

Veterans who served in the Persian Gulf War or who claim exposure to Agent Orange or atomic radiation are provided with free comprehensive medical examinations, including base-line laboratory tests and other tests determined necessary by an examining physician to determine current health status. Veterans wishing to participate should contact the nearest VA health care facility to request an examination. VA also provides priority treatment to any Vietnam-era veteran whom, while serving in Vietnam, may have been exposed to dioxin or to a toxic substance in an herbicide or defoliant used for military purposes.

Priority healthcare services are available for any veteran exposed to ionizing radiation from the detonation of a nuclear device in connection with nuclear tests of the American occupation in Japan during specified dates. Contact the VA Regional Office for expiration dates for treatments. Marital and family counseling is provided to veterans of the Persian Gulf War and their spouses and children. The counseling is provided at VA medical centers and vet centers.

Loans on Homes, Condominiums, & Mobile Homes

For veterans and eligible unmarried surviving spouses of WWII, Korean War, post-Korean War, Vietnam era, and post Vietnam era, for spouses of service personnel officially listed as missing in action, or captured, for more than 90 days, and for service personnel who have served at least 90 days. The home loan program has been extended to members of the National Guard and Reserves who have served a total of at least 6 years and have received an honorable discharge. However, a higher funding fee will be required. This eligibility is in effect from November 1, 1992, through September 30, 2003. The loan may be used to buy, build, repair, alter, or improve a home. This also includes energy efficient improvements. The loan also may be used to buy a residential unit in certain condominium projects, to finance an existing home, and to buy a mobile home with or without a lot.

For additional information on loan maximums, additional entitlement, restoration and substitution of entitlement, financing, interest rates, insured loans, down payments and maturity, closing costs, safeguards, certification, or release of liability, call Loan Servicing at 1-800-729-5772.

Military Records

Indiana veterans may contact the Indiana Department of Veterans Affairs to see if a copy of their DD214 is on file. In Indianapolis call (317) 232-3910 or toll-free at 1-800-400-4520. If the veteran cannot locate discharge and separation papers, a copy can be obtained online at <http://www.archives.gov/veterans/military-service-records/>. A copy can also be obtained by completing a Standard Form 180 (SF180) or by writing the National Personnel Records Center, Military Personnel Records, 1 Archives Dr., St. Louis, MO 63138. Specify that a duplicate separation document or discharge is needed. The veteran's full name should be printed or typed, and the request must contain the signature of the veteran or the signature of the next of kin, if the veteran is deceased. Include the veteran's branch of service, service number or Social Security number (whichever is appropriate), and the exact or approximate years of service. The SF180 can be obtained from VA offices, County Veterans Service Officers, and most veteran service organizations.
